EDUCATION

Cavite State University - Tanza   **Tanza, Cavite**
Bachelor of Science in Information Technology   *Sept 2024 - Present*

STI College Rosario   **Rosario, Cavite**
Bachelor of Science in Information Technology   *2023 - 2024*

TECHNICAL SKILLS

Languages: Java, Javascript, Go, SQL, Typescript
Frontend: Reactjs, Nextjs, Tailwind Css
Backend: Nodejs, Expressjs, Gin (Go), MongoDB, Firebase
Tools/Technologies: Git, Github, Postman, REST APIs

PROJECTS

Saju-Bazaar - Online Marketplace   *Oct. 2024 - Feb. 2025*
Next.js | TypeScript | Express.js | MongoDB | Rest API's
Github | Live Demo
- Developed a **full-stack online marketplace** where users can buy, sell, and manage products.
- Implemented **JWT-based authentication** for secure user login and registration.
- Designed **seller and buyer dashboards** for easy product management and order tracking.
- Integrated **Stripe for payments**, allowing seamless checkout and transaction processing.
- **Deployed on Vercel**, ensuring high availability and performance for users.

AssTech - Tech Students with AI-Driven Learning   *Feb. 2025*
Next.js | TypeScript | Gin web framework (Go) | Rest API's
Github | Live Demo
- Developed an **AI-powered learning platform** to assist tech students in project ideation and skill-building.
- Implemented **a capstone & project idea generator**, helping students explore relevant projects based on industry and technology.
- Built an **interactive code compiler** that allows students to write, test, and debug code with real-time explanations.
- Designed a **personalized learning roadmap feature**, enabling users to set structured career paths with a challenge duration.
- **Deployed on Vercel and Railway**, ensuring a scalable and high-performance platform for users.

Drizzy Movie   *Aug. 2024*
Next.js | TypeScript | Tailwind Css| Rest API's
Github | Live Demo
- Developed a dynamic movie discovery platform using **Next.js and TypeScript.**
- Integrated the **TMDB API** to fetch and display trending, top-rated, and upcoming movies.
- Enabled users to watch movie trailers and explore similar movies for better recommendations. Deployed on Vercel.
